Free Teen Skin Care Lessons

Ah, the dramas of teenage skin! At a time when things can be a little crazy and difficult, they don't need skin troubles too. And even though you want to help them to care for their skin properly, you're not sure just what exactly they should be doing!

Well, the girls of Skinovations have the answer for you....

Skin Care Lessons at The Skin Bar!

A lesson begins with a chat about what their particular skin troubles are followed by a quick face map. Dermalogica's Face Mapping skin analysis will help us to see your skins past, present and future. Through Face Mapping your therapist will be able to create a personal prescription for your skin.

Then the fun really begins. Step by step, your therapist will take you through your prescribed skin regime. You'll actually cleanse, exfoliate, mask, moisturize and more! So you get to feel all the products and how amazing they'll make your skin feel and you'll see their results. You'll learn exactly how to use your products and just how much to use (it's a lot less than you think!)

In 30-40 minutes you'll learn a lot about your skin and exactly how to care for it. After all, you've got your skin for life- love and protect it!

Skinovations skin care lessons are valued at \$35 but this month we have an amazing offer for you.

Have a Free Skin Bar Skin Care Lesson any day this month at Skinovations!

But that's not all....
